

Where the mind is without fear
and the head is held high;
where knowledge is free;
Where the world has not been broken up
into fragments by narrow domestic walls;
Where words come out from the depth of truth;
Where tireless striving stretches its arms
towards perfection;
Where the clear stream of reason
has not lost its way
let my country awake.
into the dreary desert sand of dead habit;
Where the mind is led forward by thee
into ever-widening thought and action-
Into that heaven of freedom, my Father,

- Rabindranath Tagore

Evolve beyond the ordinary

F R O M

KG TO CORPORATE

We Shape Futures.

KG to 12 • Competitive Prep • Higher Education • Corporate Success

Do not ask your children
to strive for extraordinary lives.
Such striving may seem admirable,
but it is the way of foolishness.
Help them instead to find the wonder
and the marvel of an ordinary life.
Show them the joy of tasting
tomatoes, apples and pears.
Show them how to cry
when pets and people die.
Show them the infinite pleasure
in the touch of a hand.
And make the ordinary come alive for them.
The extraordinary will take care of itself.

- William Martin

MESSAGE FROM THE BOARD

ENCOURAGING OVERALL DEVELOPMENT

At Sparsh Universe, our vision is clear — to make a meaningful difference in education, whether it is K-12 learning or higher education. We believe that true education goes beyond classrooms and textbooks; it is about inspiring young minds, shaping values, and preparing students to thrive in an ever-changing world.

Our group is built on the pillars of excellence, inclusivity, and innovation. From nurturing curiosity in early years to empowering young adults in higher education, Sparsh Universe is committed to providing an ecosystem where learners can grow into confident, compassionate, and capable individuals.

We aspire to create institutions that are globally benchmarked yet deeply rooted in Indian ethos — places where every child feels valued, every teacher is empowered to innovate, and every parent finds pride in their child's journey.

Sparsh Universe is not just a group of institutions; it is a movement of transformation in education — one that strives to touch lives, ignite aspirations, and build leaders who will shape tomorrow.

Together, we are shaping a future where education truly makes a difference.

MESSAGE FROM THE CEO

RAISING LEARNERS FOR A NEW WORLD

Dr. Amit Saxena

Chief Executive Officer - Sparsh Universe,
Education

At Sparsh Universe, we believe education is not just about imparting knowledge, but about nurturing minds, shaping character, and creating leaders who will make a difference in the world.

With some of the top-ranked and highly rated K-12 schools and higher education institutions under our umbrella, Sparsh Universe stands as a symbol of trust, excellence, and innovation in learning. Our mission is to provide an ecosystem where students discover their potential, embrace values, and prepare for a future driven by knowledge, creativity, and compassion.

We are committed to building a learning community that is inclusive, progressive, and globally relevant — where every learner is inspired to dream, every teacher is empowered to innovate, and every parent feels assured that their child is in the right hands.

Sparsh Universe is not just a group of institutions; it is a movement towards holistic education that blends tradition with modernity, academics with values, and knowledge with wisdom. Together, we are creating a future where our learners will not only excel in their careers but also lead with integrity, empathy, and vision.

With gratitude for the trust placed in us, and with a promise to keep raising the benchmark of excellence — I welcome you to the world of Sparsh Universe.

Vision

To build a seamlessly connected learning universe from early childhood to corporate boardrooms where every learner discovers purpose, develops mastery, and contributes meaningfully to the world.

Mission

Sparsh Universe exists to empower learners at every stage of life by:

1. *Creating a Continuum of Learning*

- Bridging KG–12, Higher Education, Skills, Entrepreneurship & Corporate Development into one unified growth pathway.

2. *Developing the 3C Human Advantage*

- Competency (Knowledge + Skills)
- Character (Ethics + Empathy)
- Creativity (Innovation + Enterprise)

3. *Future-Readiness for All*

- Integrating technology, sustainability, global citizenship, and leadership across every institution and curriculum.

4. *Impact-Driven Excellence*

- Advancing academic, professional, and entrepreneurial success through measurable, research-led practices.

5. *Empowered Faculty & Mentors*

- Investing in people who ignite curiosity, accelerate performance, and shape character.

6. *Closing the Opportunity Gap*

- Expanding access to quality education, employability, and innovation opportunities for diverse communities.

7. *Collaborating with Industry & Society*

- Aligning learning outcomes with real-world needs and global challenges.

SPARSH UNIVERSE

“Shaping Futures. Uplifting Society.

At Sparsh Universe, we are more than just an educational group — we are a transformative ecosystem nurturing minds from the first step of schooling to the threshold of professional success.

Through our diversified verticals — world-class schools, progressive colleges, and competitive exam coaching — we are committed to delivering holistic, future-ready education that goes beyond books and classrooms. We empower learners to dream big, think critically, and evolve as responsible global citizens.

Driven by a purpose larger than profit, our journey is rooted in social upliftment through education — making quality learning accessible, innovative, and deeply human. Every initiative, every classroom, every success story is a step forward in building a brighter, more inclusive tomorrow. ”

Test Prep Program

Test Prep

Introducing comprehensive program designed to prepare students for excellence in school exams, Olympiads, and competitive exams. The course not only strengthens core concepts but also lays a strong foundation for future exams like JEE, NEET, CLAT, IPMAT, CUET and other professional career paths. With a focus on career guidance and skill-building, we empower students to make informed choices and achieve their with confidence.

CURRENT PRACTICES	ISSUES FACED BY STUDENT	SPARSH ACADEMY APPROACH
One-Size-Fits-All Approach Most coaching institutes follow a rigid teaching structure that doesn't cater to individual learning pace or styles.	Students who need extra help or advanced learning feel left out, leading to frustration and under performance.	Customized Learning Materials Tailored study resources and question banks designed to address individual learning gaps and Exam patterns.
Overemphasis on Rote Learning Orthodox methods stress memorization over conceptual understanding	Students struggle with application-based questions in competitive exams, where logic and reasoning are critical.	Block Method of Teaching Focussed learning with dedicated time blocks for individual subjects, ensuring deep understanding and mastery before moving to the next topic.
Large Batch Sizes Big class sizes result in minimal interaction between students and teachers.	Students' doubts remain unresolved, and they feel neglected.	Small Bath Sizes Limited class strength to ensure personalized attention and direct interaction with faculty.
Lack of Individualized Feedback Feedback is often generic and not tailored to address specific weaknesses.	Students don't know how to improve or focus on the areas where they struggle.	Assessment-Led Learning Regular, adaptive assessments to identify strengths and areas for improvement, creating personalized study plans for each student.
Irregular Assessment Practices Assessments are conducted sporadically, without actionable followup plans.	Progress tracking is inconsistent, and students don't get enough practice for exam.	Date-Driven Progress Tracking Rigorous testing with advanced analytics to monitor performance and provide actionable feedback.
Outdated Curriculum and Techniques Institutes don't update their curriculum or teaching strategies to align with changing exam patterns and multiple exams	Students are ill-prepared for newer question types, competitive trends and are unable to score well in multiple exams.	Integrated Guidance for Multiple Exams A streamlined approach to prepare students for multiple competitive exams, saving time and effort.
Lack of Focus on Mental Health and Motivation Institutes don't address the emotional and psychological stress students face	High levels of anxiety and burnout reduce focus and performance.	Customized Learning Materials A dedicated life coach for every student to support mental well-being, motivation, time management, and career clarity
No Integration of Technology Limited use of interactive tools or tech-based solutions to make learning engaging.	Students miss out on innovative approaches that simplify complex concepts.	Interactive & Technology-Driven Learning Use of smart tools, AI-based learning platforms, and interactive teaching techniques to make concepts engaging and easier to understand.
Limited Support Beyond Academics Coaching centers fail to guide students on career choices, time management or building confidence.	Students feel unprepared for both exams and future life challenges.	Holistic Development Approach Career Counselling before admission to guide students in taking better career choices.
Lack of Parental Involvement Institutes do not involve parents in their child's progress tracking or offer insight into how they can help.	Students don't get the right support system at home to reinforce learning.	Strong Parent-Teacher Collaboration Regular updates and counseling sessions for parents to align their support with the student's academic journey.

Young IAS Program

OBJECTIVES

Young IAS Program/ Civis Pathshala- Rooted in Indian ethos, preparing future civil servants

PROGRAM STRUCTURE

YEARWISE CURRICULUM DESIGN

GRADE 9: AWARENESS & SKILL FOUNDATION

Core Focus: Reading habit, India's geography, history, and basic polity.

GRADE 10: CONCEPT BUILDING

Core Focus: Indian freedom struggle, modern Indian history, Constitution in detail.

GRADE 11: ANALYTICAL THINKING & WRITING

Core Focus: Economy, governance, world affairs, ethics basics.

GRADE 12: PREUPSC ORIENTATION

Core Focus: UPSC Prelims + Mains pattern introduction.

SYNCHRO

Program

In response to the growing need for an integrated educational approach, we are introducing the School Synchro Program. This unique initiative combines the regular school curriculum with expert-led coaching for competitive exams, all within school hours. This program is designed to alleviate the burden on students and parents by providing a holistic learning environment that caters to both school and competitive exam preparations simultaneously.

Reduce Time Constraints

Minimize Pressure

Personalized Attention

Cost Efficiency

Comprehensive Learning

Time Table

The Synchro Program will run during regular school hours, with separate batches formed for students opting into the program. The timetable will ensure that both school subjects and preparation for competitive exams are balanced effectively.

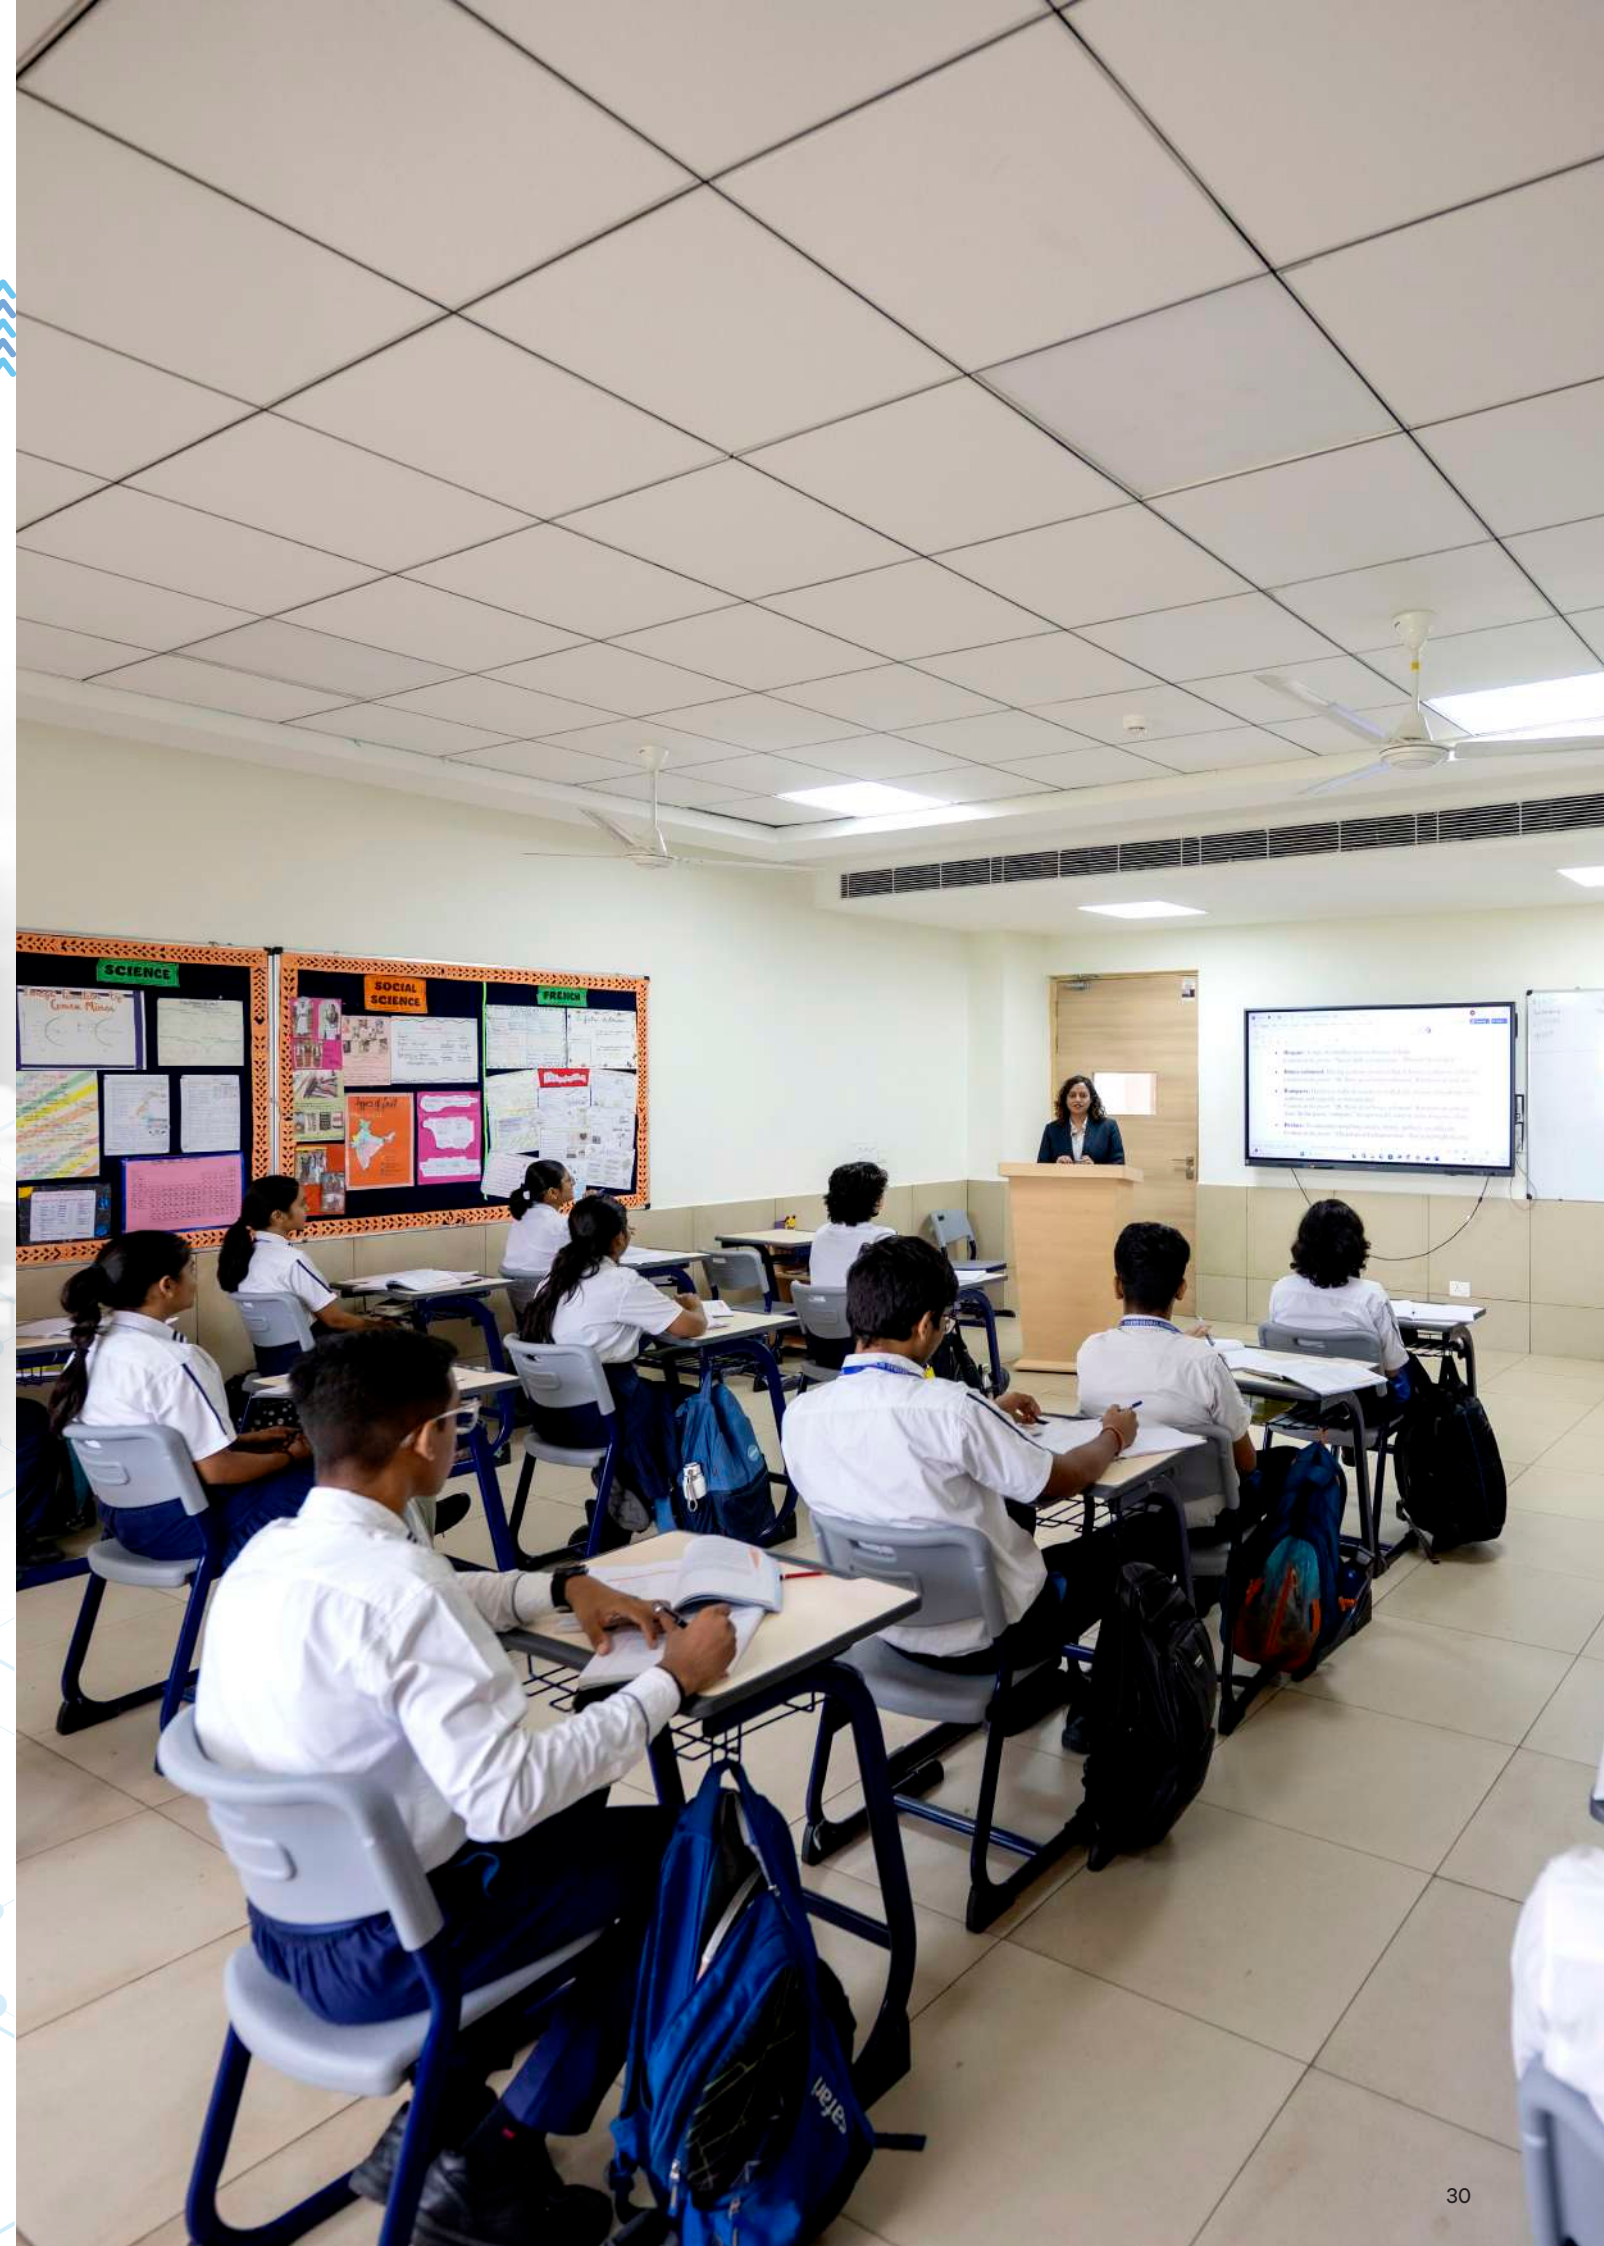

Expert Coaches

Experienced experts will handle the competitive exam training, providing specialized knowledge and strategies to excel in exams.

Supportive Environment

The program will foster a collaborative environment where students can learn in tandem, reducing the burden of juggling multiple schedules.

Teachers

Capacity Building and Empowerment

A structured and hands-on professional development framework designed to empower educators, coordinators, and leadership teams with 21st-century teaching and leadership skills. The program includes regular workshops, seminars, and experiential sessions focusing on classroom management, digital pedagogy, differentiated instruction, competency-based education, and socio-emotional learning strategies. Participants will also earn an internationally recognized certification upon completion.

Approach Note Based on Sparsh Academy

Create

Produce new or Original work

Subject Mastery

Modern teaching methodologies and
integrated for TGT and Middle Wing.
NEP aligned Content
Focus on experimental and Activity
based learning.

Academic Management

Academic Management Framework

Curriculum Planning & Design

Structured, progressive and adaptable curriculum aligned with NEP guidelines & global standards.

Student Assessment Frameworks

Data-driven assessment systems for regular academic audits, student tracking, and performance improvement.

Lesson Planning & Pedagogical Support

Detailed lesson plans, teaching aids and digital resources to ensure engaging classroom experiences.

Content Development

Creation of customized academic content, workbooks, activity sheets, digital resources for blended learning

Teacher Training & Capacity Building

Customized training modules for continuous professional development and effective classroom delivery.

Internal Quality Assurance Cell (IQAC)

What is IQAC?

The Internal Quality Assurance Cell (IQAC) is a vital institutional mechanism dedicated to promoting consistent quality enhancement

Key Objectives

Establish and nurture a culture of academic and operational excellence.
Ensure continuous improvement in teaching, learning, and evaluation processes.
Develop and implement quality benchmarks and best practices.

IQAC – Core Functions at Sparsh Academy

1. Continuous Monitoring & Evaluation

Regular review of academic, administrative, and co-curricular processes to ensure alignment with quality standards.

2. Facilitating Best Practices

Identification, implementation, and institutionalization of innovative practices for academic and operational excellence.

3. Stakeholder Engagement

Active involvement of faculty, students, management, and external experts for collaborative quality enhancement.

4. Promoting a Culture of Excellence

Organizing seminars, workshops, and capacity-building initiatives to foster professional growth and institutional advancement.

Budpreneur Program

BUDPRENEUR is a initiative designed to nurture entrepreneurial thinking among school students from Grade 7 onwards. The program aims to bridge the gap between school education and higher education by introducing students to real-world business concepts, innovation practices, and entrepreneurial mindsets at an early stage.

Program Structure & Progression

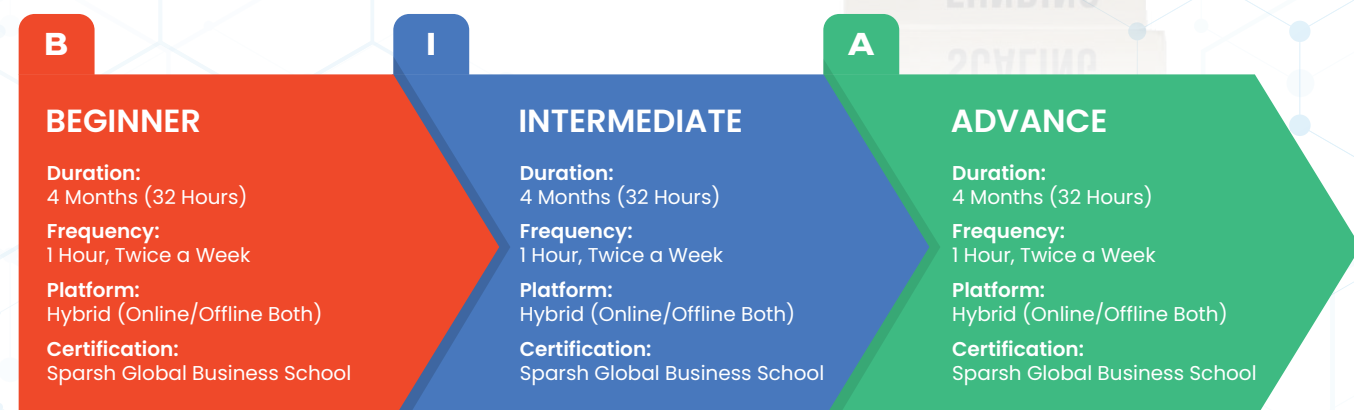

Program Structure

- Introduction to Entrepreneurship
- Financial Literacy, Idea Validation, Teamwork
- Advanced Business Modelling, Leadership, Pitching

Add-Ons to the Program

- Coding for Beginners
- English Communication & Reading Skills
- Leadership & Personality Development
- Mindfulness & Stress Management
- Experiential Learning
- Global Mentors
- Seed Capital for Ideas
 - Seed Capital Sponsorships
 - Mentoring Opportunities
 - Campus Placements

Program Snapshot

STEM

Science, Technology, Engineering, Mathematics Program

Integration of STEM Education

Specialized Workshops

Hands-on STEM labs, coding clubs, AI and IoT bootcamps for students and capacity-building sessions for teachers.

Curriculum Support

Integration of STEM modules aligned with core subjects, problem-based learning activities, and project-based assessments.

Experiential Learning Modules

Real-world problem-solving projects, maker space activities, robotics challenges, and STEM fairs.

Learning Outcomes

- Enhanced Critical Thinking
- Improved Problem Solving Skills
- Exposure to Emerging Technologies (AI, IoT, Robotics)

Recognitions that Reflect Remarkable Leadership

Evolve Beyond the Ordinary
